## HOW IT WORKS

Let It Ride Poker is an exciting five card poker game where each player gets dealt three cards out of a standard 52 card deck and uses the two community cards in the middle of the table to make their best five card poker hand.

There are three betting areas, labeled "1", "2", and "3", on the table for the base game of Let It Ride Bonus Poker. These bets are mandatory and must all be of equal value in order to play the game. There is also an optional 3 Card Bonus bet that may be made.

Play begins with the player looking at their three cards and deciding if they want to remove their "1" bet or "Let It Ride." A player wanting to remove the bet will make a scratching motion on the table with their cards and the dealer will then push the "1" bet off the betting circle and back to the player. Those wanting to "Let It Ride" will make a waving motion with their hand to indicate that they do not want to remove the "1" bet. The dealer will expose the first of the two community cards and players will now have the option of removing their "2" bet in the same manner. Following that, the player will tuck their cards under the last bet and the dealer will expose the second community card.

The dealer will then pay or take the bets left remaining in the betting circles according to the following pay table.

Hand	Base Pay Payout
Royal Flush	1000 to 1
Straight Flush	200 to 1
Four-of-a-Kind	50 to 1
